ROLL OFF CONSTRUCTION RATE

Ohio EPA definition of construction debris those materials resulting from the alteration, construction, destruction, rehabilitation, or repair of any manmade physical structure including houses, buildings, industrial or commercial facilities, and roadways. C&DD includes structural and functional materials comprising the structure and surrounding site improvements, including:

- 1) Brick, concrete and other masonry materials
- 2) stone
- 3) glass
- 4) wall coverings
- 5) drywall
- 6) framing and finishing lumber
- 7) roofing materials
- 8) plumbing fixtures (toilets, sinks, water heaters, pipes)
- 9) heating equipment (furnaces, duct work)
- 10) electrical wiring and components containing no hazardous fluids or refrigerants
- 11) insulation
- 12) wall to wall carpeting
- 13) asphaltic substances
- 14) metal incidental to any of the above

Excluded items:

- 1) NO household trash of any kind (furniture, appliances, tires, oils, paints, hazardous chemicals of any kind)
- 2) NO bags of trash (garbage, rubbish, trash bags or lunch bags)

If anything other than these items are found in the load it will change the rate from the flat construction rate to rate by the weight. Please sign acknowledging that you have read and understand what a construction load is and that if it deviates in any way that it will change the rate. As a reminder your credit card will remain on file and active until account is paid in full. The EPA is monitoring C&D loads so we have to as well.
